Damien Perez from Westminster PD had retired his K9 partner, Harley, earlier this year. A few weeks ago it was discovered that he had a tumor that would require surgery (this would cost \$3500). With the help from ???????, who donated his time, materials, ect . All Damien would have to pay out would be the room for the surgery. The Board Members voted to cover this cost.

## **TRAINING UP-DATE**

The CPCA has hosted or co-sponsored a number of trainings this year (e-collar, drug interdiction, supervisor course, legal up-dates). We will have a few more coming up. These classes have been at a low to no cost. If you would like a type of training, please give any suggestions to Brain Laas.

Trainers classes/course. Jeff Meyer proposed an idea regarding the CPCA conduction a K9 trainers course. This is designed for those agencies who have not had or who no longer have the funding to send its K9 trainer to get certified. Those who maybe interested, should express there interest to Brain or Doug.
